## OBJECTIVE

Recent graduate seeking an entry-level Frontend Developer position in a dynamic organization, where I can utilize my skills in HTML, CSS, JavaScript, and Java to contribute to the frontend development team's goals. Eager to learn and grow, I am dedicated to leveraging my creativity and passion for technology to support the organization's success

## WORK EXPERIENCE

- I have successfully designed and developed responsive websites for clients, focusing on creating visually appealing and user-friendly interfaces. Utilizing my skills in HTML, CSS, JavaScript, and Bootstrap
- Freelance Frontend Developer: Successfully completed freelance projects, including the creation of a dynamic website for a DJ operator and personal Portfolio websites.
- Created an engaging website for INVICTUS , a college event, showcasing event details, schedules, and interactive features to enhance attendee experience and promote participation

## INTERNSHIP

- FULL STACK IN JAVA AT LEARNHUB** (August 2022 -September 2022)  
Completed Full stack in JAVA at LearnHub, worked on real-time projects

## PROJECTS

- SURVEILLANCE SPY & PATROLLING ROBOT :->** The project aims to enhance security and developing an autonomous robot capable of patrolling and monitoring designated areas while capturing real-time images and sounds
- E-COMMERCE FOOD STORE :->** Customisable website template designed for food businesses, providing a user-friendly interface, seamless ordering, and flexible product showcasing and selling options.
- PERSONAL PORTFOLIO WEBSITE :->** A visually stunning and user-friendly platform showcasing my skills, experience, and projects, designed to impress and engage potential employers and clients.

## CO-CURRICULAR ACTIVITY
